REAC

LIVE PERSONAL MIXER **M-48**

The Breakthrough Personal Mixing & Monitoring Solution

NEW!

Over the past 3 years Roland Systems Group have brought a series of innovative and affordable live audio and video products to the market with extraordinary success. Equipment like the V-Mixing System, Digital Snake and V-8 Vision mixer have solved issues like noise interference, practical portability and ease of use that have plagued live event production for decades. All with astonishing simplicity and at a very affordable cost.

On Thursday the 28th of May we invite you to see a special presentation by Roland, with the opportunity for hands-on experience with products that are certain to impress. Along with the various V-Mixing solutions you will be able to see the brand new M-48 personal monitoring system, Edirol vision mixers, P-10 visual sampler, R09-HR portable recorder and the brilliant Sonar Producer 8 live multitrack recording option.

Whether you are in the market for new live production equipment, or simply curious about how these innovative solutions could impact you in the future, this is a must see event from a much respected and successful manufacturer.

When: Thursday 28th May 2009

Time: 7:30 - 9:30pm

Where: Edwardstown Baptist Church, Cnr Rothesay Ave & Dorene St. St Marys

RSVP: Keith Ellison via keith@tecsa.com.au or 0411 556075
